The **2017 Summer Global Leadership Seminar**, a week-long summer institute open to all rising high school sophomores, juniors and seniors, explored how the Trump administration is reshaping U.S. foreign policy—and how these changes have reverberated around the world.

Through guest lectures and interactive workshops, students examined the new direction of U.S. foreign policy under the leadership of President Trump. Additionally, students took part in a half-day simulation during which they role-played the decision-making processes of foreign policy leaders.

The Seminar’s fifth-day field trip to Washington, D.C., offered students the exciting opportunity to meet with and hear from diplomats at the **Delegation of the European Union to the United States**, as well as officials from the **U.S. Department of State** working on the frontlines to address the plight of migrants and refugees.
