### 2018 Summer Global Leadership Seminar

Islam, Politics, & the Changing Middle East

Monday, July 9, 2018 - Friday, July 13, 2018

The 2018 Summer Global Leadership Seminar, a week-long summer institute open to all rising high school sophomores, juniors and seniors, will explore the rise of political Islam and how the diverse array of political agendas, goals, and activities of Islamist groups are reshaping the Middle East—and how these changes are reverberating around the world. Through guest lectures and interactive workshops, students will examine Islam, politics, and change in the Middle East. Additionally, students will take part in a half-day simulation during which they will role-play the decision-making processes of foreign policy leaders. To register, visit <http://www.wacphila.org>.

## THE WORLD AFFAIRS COUNCIL'S EDUCATION PROGRAM

*We create global citizens.* The World Affairs Council's educational programming directly reaches nearly 2,200 students in the Greater Philadelphia area each year and has touched the lives of over one million students since the Council's inception in 1949. Featuring large-scale conferences and workshops designed to simulate global forums, including the **International Student**

**Summit** and **Global Economic Forum** for high school students, and the **Student Diplomat Program/Jr. Model United Nations** for middle school students, Council programs challenge students to work collaboratively and creatively to problem solve some of the major global challenges of the 21st century.

The Council's mission of civic engagement and global education is also embodied in the **William W. Bodine High School for International Affairs**. Like our student education programs, Bodine is nationally acclaimed for its role in furthering international education for a new era.

## NOTES

## THE CONVENING OF THE SUMMIT

The **2018 Global Summit for High School Students** will simulate an emergency, multinational summit aiming to promote stability and find a peaceful resolution to recent security concerns posed by North Korea's strengthening of its WMD programs. This meeting will take place against a backdrop of increased military provocations in the region by the DPRK, including the proliferation of military-related items, long-range missile development and top-secret tests of chemical weapons and nuclear devices.

As one of the world's most secretive and unpredictable nations, North Korea (DPRK) has maintained an active nuclear weapons program, supply of missiles and long-range rockets, and extensive store of biological and chemical weapons. With one of the world's largest standing armies, a heavy naval presence in the Pacific Ocean, and forcefully nationalistic worldview, intensive diplomatic efforts to rein in North Korea's WMD ambitions and promote stability in the region have resulted in limited progress due to periods of crisis and stalemate.

Representing a stakeholder (either a senior diplomat, military officer or trade/economic officer) from one of the Six Party Talks countries, student delegates will be tasked with finding a collective strategy in talks with Pyongyang to prevent the proliferation of WMDs and possible export of materials and missile technology to hostile states and terrorist groups. The goal of the summit is to find a resolution that will restore peace and stability on the Korean Peninsula and in Northeast Asia.

The World Affairs Council of Philadelphia gratefully acknowledges The Subaru of America Foundation, Inc. for its generous sponsorship of the 2018 International Student Summit and for its enduring support of the Council's education mission to prepare young people for thoughtful and competent global citizenship.
